Completion rates leave out the students whose course has not ended yet. Figures as at 23 October 2026.

Completion by learning mode

459 of the 529 students whose course has ended completed it (87%). 31 are still in class and are left out. Online is the weak spot: only 68% of online students finished, against 94% in class. Weekly check in calls for online learners would help.
